

Arizona Department of Transportation

Intermodal Transportation Division Roadway Engineering Group

MEMORANDUM

To: All Design Personnel

Date: August 25, 2005

From: William Lyons, Manager
Design Section

Subject: Special Provisions for Use With C-Stds

Special provisions have been prepared and are available to supplement the updated Construction Standard Drawings (C-Stds). Project engineers and designers should review these special provisions and, as appropriate, include them in the contract documents for their project. The special provisions can be accessed by clicking on Roadway Design on the Roadway Engineering Group website.

These special provisions are an interim measure until Contracts & Specifications Section (C&S) incorporates this information into their stored specifications. Project Managers should include these special provisions in their Stage submittals to C&S so that the requirements can be made a part of the project's contract documents.

Please distribute this memorandum to all design personnel, project managers, consultants, and other C-Stds users in your respective Group, District, or Section.

Direct questions regarding this memorandum to Kenneth Cooper, Roadway Standards Engineer at 602-712-8674 or kcooper@azdot.gov.
